

MATHS- WEEK 1 - HOME LEARNING FOR NURSERY

Day 1: Go on a walk around your house. Look for shapes in the rooms of your house. What shapes can you see? For example, Clock is a circle.

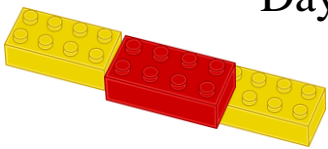

Day 2: What different objects do you have in your house? Can you sort different objects into groups? Put all the shoes together, all your teddies together.

Day 3: How many things do you have in your house? Can you count objects around your house? Can you tell an adult how many objects you found? Count some socks, shoes, spoons, chairs etc.

Day 4: Make a pattern using objects in your home. What objects did you use to make a pattern? Can you tell an adult? Try making a pattern with different coloured blocks or use some shoes and socks.

Day 5: Make a tower using blocks. Count how many blocks you used. Can you make some towers using different amounts of blocks?
