

SPRING

-SEASONAL CHANGES

In Science, we have been looking at the different seasons that we come across over the year.

We have currently entered 'spring'. Your task is to create a model or poster all about the season of spring.

Think about:

- What is the weather like?
- What do you wear?
- What can you see outside? For example: spring lambs, leaves/blossoms growing.
- Include all that you may associate with spring.
