

In Art you will design and create your own animal mask.

**First step:** start by making the design of your animal of choice! This is really important. Draw and colour it in. How will you mix and blend the colours to make it look as real as you can? What animal print does it need to be for the animal you've chosen?

**Second step:** with the help of an adult at home, can you find any materials you can use to create your mask?

**Next step:** create it and make the design with the animal print on your mask. Again with the help of an adult, make sure there are holes where they eyes go so you can look out. Holes for the nose to get some air for you while wearing it.

**Final step:** how will you put it on? Can you attach it with a stick you hold on to? Will you rather use an elastic band? (You need an adult to help on this step, to make sure it is safe to wear).

If you want, **take a picture** and post it on here so we can see. Can you write a **caption** for your picture? If you're really keen, you can **write me a story** about you being this animal of your choice. How would you spend your day? What would you see?

Can't wait to see your masks and your stories.

**Challenge:** Can you write an instruction step-by-step so someone else can make one like yours?

PS If you struggle for ideas, use what you have at home already to make a mask. Lego or duplo bricks? Pieces of fabric you can paint on?
