

# At the Movies

**Home Learning - Topic: History/Computing**  
**History of Cinema and Entertainment**

**Aim**

- I can understand how and why cinema changed over the 20<sup>th</sup> century.

**Success Criteria**

- I can design a movie poster.
- \* I understand what advertising is.
- \* I can use a computer to design and create an image.

# Creating Film Posters

Following on from last week's presentation about the history of cinema, you now know about the role of cinema in the early 20<sup>th</sup> century.

Task: create your own film poster.

You need to:

1. Choose one of your favourite films.
2. Design a poster that advertises the film. You may use Google slides, docs or any other online programme to do this.
3. Submit your poster to your teacher.
