

Ch 2 and 3:

Work from left to right in rows of three.

Write each as a fraction first then a percentage. (simplify the fraction where you can)

Example: Q1

$0.77 = \frac{77}{100} = 77\%$

Write your answers below.

Write Decimal Numbers as Fractions

Write the following decimal numbers as fractions.

0.77 = _____

0.64 = _____

0.24 = _____

0.92 = _____

0.78 = _____

0.21 = _____

0.22 = _____

0.11 = _____

0.14 = _____

0.51 = _____

0.36 = _____

0.08 = _____

0.02 = _____

0.7 = _____

0.29 = _____
