

## Exercise 1:

Snappy halved some numbers. Is he correct?

Half of 8 = 16	Half of 15 = 30
Half of 25 = 50	Half of 50 = 100

What do you think Snappy has done? Why?

**How would you help him?**

**LO:** To recognise the relationship between doubling and halving.

Type your answer below. Look carefully at the key vocabulary.

I think that Snappy.....

## Exercise 2:

- There are 20 seeds in a packet. How many seeds are there in  $\frac{1}{4}$  of the packet?
- A large chocolate cake weighs 50g. How much does half of the cake weigh?
- If a half of a packet of Jelly Babies is 45 sweets, how many are there in a whole packet?
- If Sally has  $\frac{1}{2}$  of a chocolate bar, and Sam has a  $\frac{1}{4}$  of the same chocolate bar, who has the most chocolate, Sally or Sam? (which is bigger - a quarter or a half?)
- A pizza has been divided into 8 equal slices. Sam eats three quarters of the pizza, how many slices are left?
