

## Week 1: Day 1

### Numbers to 20

1. Practise counting orally from 0 to 20 and then go back from 20-0. Make sure you say your teen numbers correctly.
2. Then write numbers from 0-20 in the correct order.

Here are the numbers!

2, 5, 7, 10, 12, 1, 18, 20, 3,  
4, 16, 6, 19, 8, 11, 14, 9,  
13, 15, 17.

3. Play this game and see if you can recognize your numbers to 20.

4. Find something in your house that you can use to count. For example: pasta, lego, toys etc.  
Adults please ask, "Can you give me 6 pasta shells?" See if the child can give the correct amount of objects asked for and they count one object at a time by moving the object one by one.
