

Dear Parents,

During the holidays, we would like you to support your child with completing small projects on the topics that they will be learning more about next term. Children will get an opportunity to share their work with their class when they come back.

Task 1 - Science

Next term we will be continuing learning about materials in Science. During the half term, please research one of the following inventors; John Dunlop, Charles Macintosh, John McAdam or Stephanie Kwolek. You can use your research to make a poster *or* write a fact file.

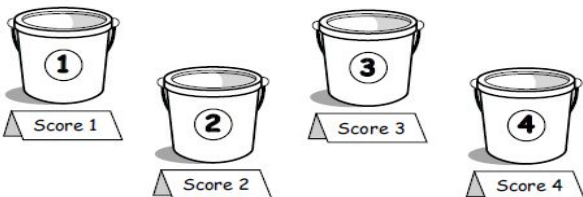

Task 2 - Maths

Try at least one of these activities during the holiday. You can show your working out in your homework book!

Bean-bag buckets

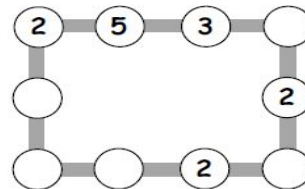

Dan threw 3 bean-bags.
Each bag went in a bucket.
More than one bag can go in a bucket.

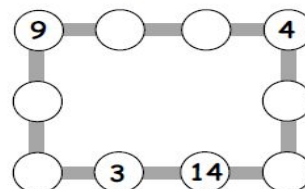

1. What is the highest score Dan can get?
2. Find three ways to score 6.
3. Find three ways to score 9.
4. What other scores can Dan get?

Number lines

1. Make each line add up to 16.

2. Make each line add up to 20.

3. Make up your own puzzle like this.
Ask a friend to do it.

Task 3 - Writing

Based on a book you have at home we would like you to create a book review. You should be able to include key events from the plot, main characters and express your opinion. Remember it is important to read every day for at least ten minutes.
