

Fiction text

Your task for today is to read your favourite fiction story with a relative you live with. Once you've read it, talk to someone about it and discuss what you like about it.

After that, you are going to get a scrap piece of paper and draw images of your favourite characters/setting. Take your time and put a lot of effort into this. You are going to need this for tomorrow's lesson.

On Tuesday you are going to find resources in your home to create 3D characters/settings that you'll be drafting today. You could use the following:

- cardboard (from cereal boxes)
 - playdough
 - straw
 - recycled bottles
 - polystyrene
- Any other recycled resources you have at home

Remember to take photos to show the steps you took to create an amazing 3D piece of work.
