

Tuesday (Week 7) Challenge 2/3
Multiplication and Division
Show your working out

1. $8 \times 18 =$
2. $4 \times 16 =$
3. $9 \times 14 =$
4. $7 \times 16 =$
5. $6 \times 14 =$

Use doubling to help make these easier!

1. $2 \times 36 =$
2. $7 \times 28 =$
3. $4 \times 32 =$
4. $3 \times 36 =$
5. $9 \times 32 =$

Using doubling and halving will make these sums a lot easier!

1. $18 \times 15 =$
2. $12 \times 45 =$
3. $16 \times 15 =$
4. $14 \times 45 =$
5. $18 \times 25 =$

I think I would turn that 5 into a 10 to help!

1. $18 \times 5 =$
2. $57 \times 5 =$
3. $61 \times 5 =$
4. $43 \times 5 =$
5. $26 \times 5 =$

Maybe you should turn that 50 into 100, that could help!

1. $54 \times 50 =$
2. $65 \times 50 =$
3. $16 \times 50 =$
4. $24 \times 50 =$
5. $74 \times 50 =$

If you take away the zeros then add them in again at the end you could make these sums really easy!

1. $48 \times 25 =$
2. $54 \times 25 =$
3. $44 \times 25 =$
4. $24 \times 25 =$

1. $3 \times 200 =$
2. $3 \times 600 =$
3. $2 \times 700 =$
4. $5 \times 400 =$
5. $4 \times 600 =$

1. $30 \times 400 =$
2. $70 \times 200 =$
3. $500 \times 30 =$
4. $20 \times 800 =$
5. $40 \times 400 =$

1. $52 \div 4 =$
2. $60 \div 4 =$
3. $28 \div 4 =$
4. $132 \div 4 =$
5. $148 \div 4 =$

1. $146 \div 2 =$
2. $128 \div 8 =$
3. $64 \div 4 =$
4. $486 \div 2 =$
5. $104 \div 8 =$
