

Dear Parents, please discuss the information on these pages with your children and make sure that they have understood the concept. The grey Workbook pages should be completed by the children as independently as possible and will be checked by their teacher. Please read any instructions carefully to know how to answer specific questions.

Reading Picture Graphs

Lesson
3

LO: To be able to read and interpret a picture graph with a scale 1:2.

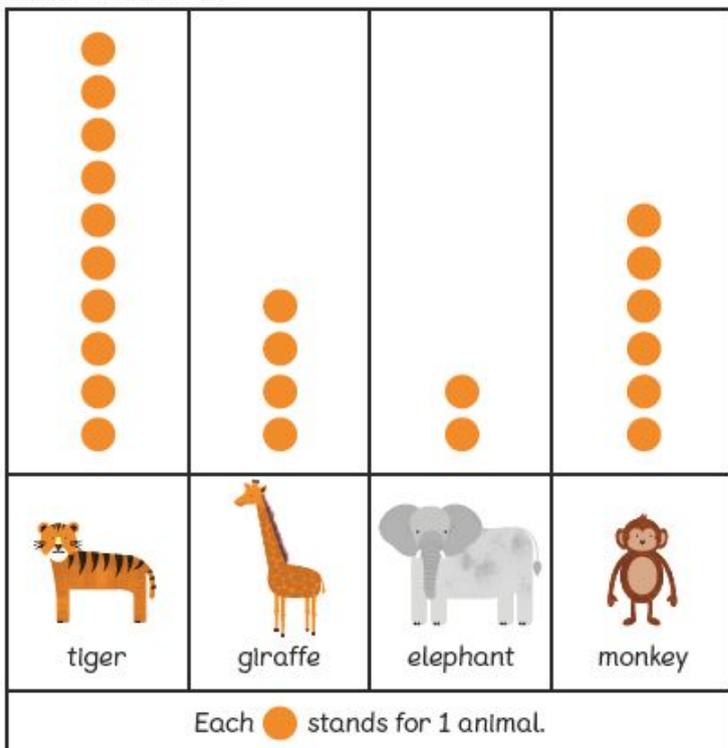

Please check this [video](https://www.youtube.com/watch?v=-pEA3w8SQws) to better understand how to work with tally charts.

Please check this [video](https://www.youtube.com/watch?v=jQebOOB-aps) to better understand how to work with picture graph with a scale 1: 2 <https://www.youtube.com/watch?v=jQebOOB-aps>

In Focus

The pictogram shows the number of each type of animal that Charles sees in the zoo.

Animals in the Zoo

Think:

How can Charles show the pictogram on a tally chart and a table?

Let's Learn

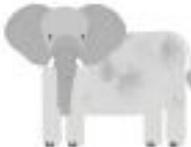

- 1 Charles shows the pictogram on a tally chart and a table.

Animals in the Zoo

 tiger	 giraffe	 elephant	 monkey
//// ////	////	///	//// /

Animal	Number of animals
tiger	10
giraffe	4
elephant	2
monkey	6

- 2 We can also use one  to stand for 2 animals.

			
 tiger	 giraffe	 elephant	 monkey
Each  stands for 2 animals.			

(a)

Which of the four types of animals did I see the least?

Is Lulu correct?

There are 10 tigers, 4 giraffes, 2 elephants and 6 monkeys.
Charles saw the fewest elephants.

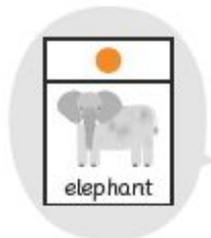

Lulu is correct.

(b) Is Elliott correct?

Each ● stands for 2 animals.

There are 2 elephants.

Elliott is not correct.

One elephant.

How many elephants did Charles see?

(c)

How many animals did Charles see in the zoo?

22 animals.

Is Amira correct?

Reflect:

How did you know Lulu is correct/ incorrect?

How do you know Elliot is not correct?

What useful information will help us find out the total amount of animals?

What method could you use to find the total?

Method 1

Animal	Number of ●	Number of animals
tiger	5	10
giraffe	2	4
elephant	1	2
monkey	3	6

$$\begin{aligned} \text{Total} &= 10 + 4 + 2 + 6 \\ &= 22 \end{aligned}$$

Method 2

There are $5 + 2 + 1 + 3 = 11$ ●.

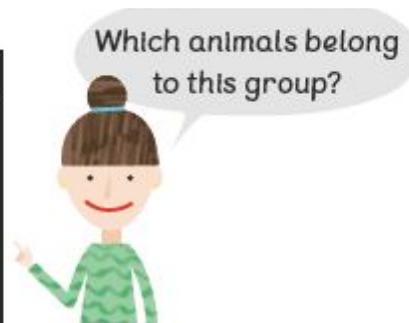

Each ● stands for 2 animals.

There are 22 animals.

Amira is correct.

3

5 or fewer	more than 5

Can you ask other questions that can be answered by looking at the pictogram?

5 or fewer	more than 5

Remember, when finding out how many more or how many less, you need to do a subtraction calculation with the 2 groups that you are comparing. For example, if I want to know how many more tigers than giraffes, I would do $10 - 4 = 6$ so

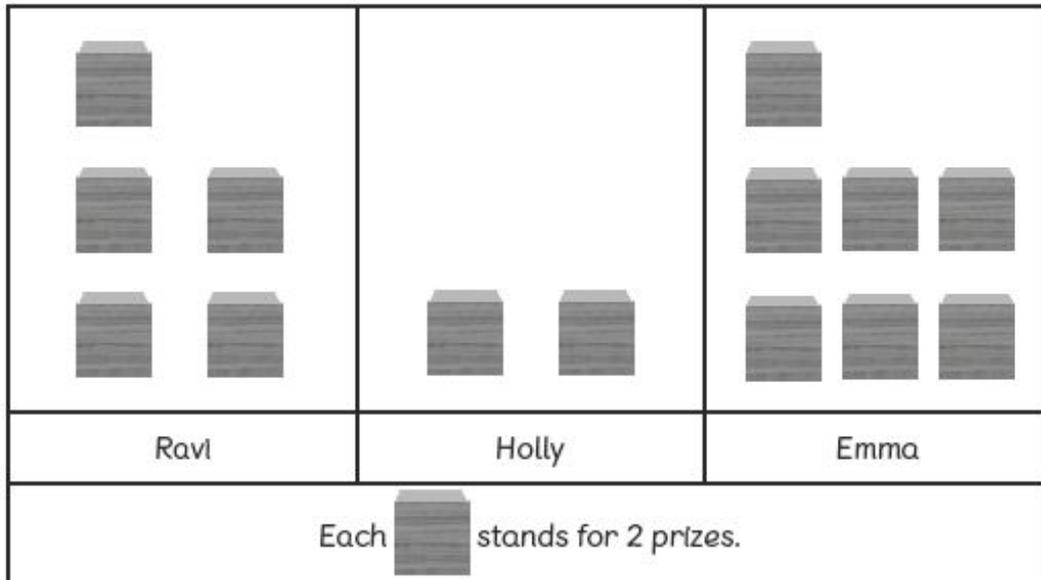

There are 6 more tigers than giraffes.

Worksheet 3

Reading Picture Graphs

- 1 The pictogram shows the number of prizes won by some children during a game. Look at the pictogram and fill in the blanks.

Number of Prizes Won

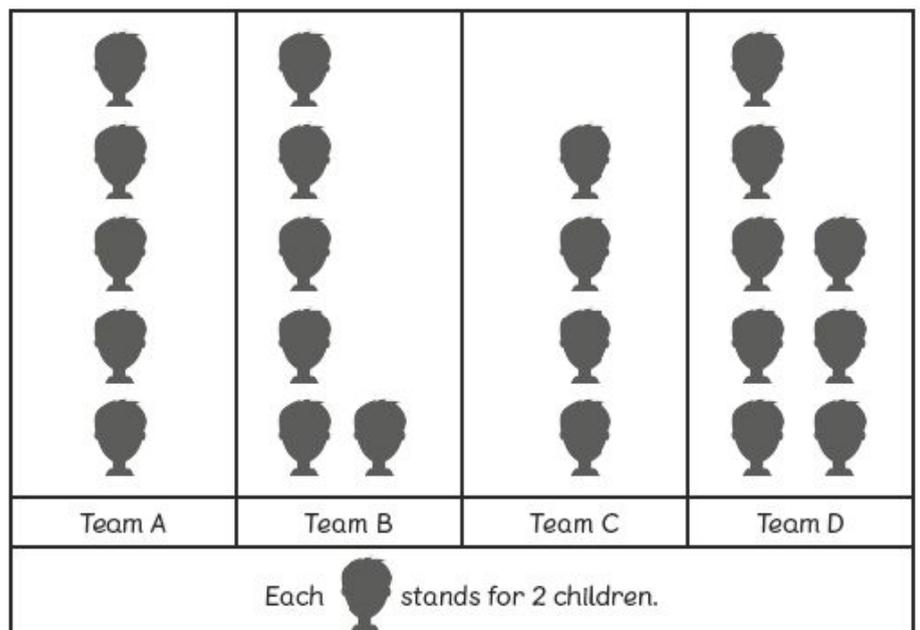

Remember: one picture means 2 prizes.

- The three children won _____ prizes together.
- _____ won the most prizes.
- _____ won the least prizes.
- Ravi won _____ prizes.

- 2 The pictogram shows the number of children in 4 teams.

Look at the pictogram and fill in the blanks.

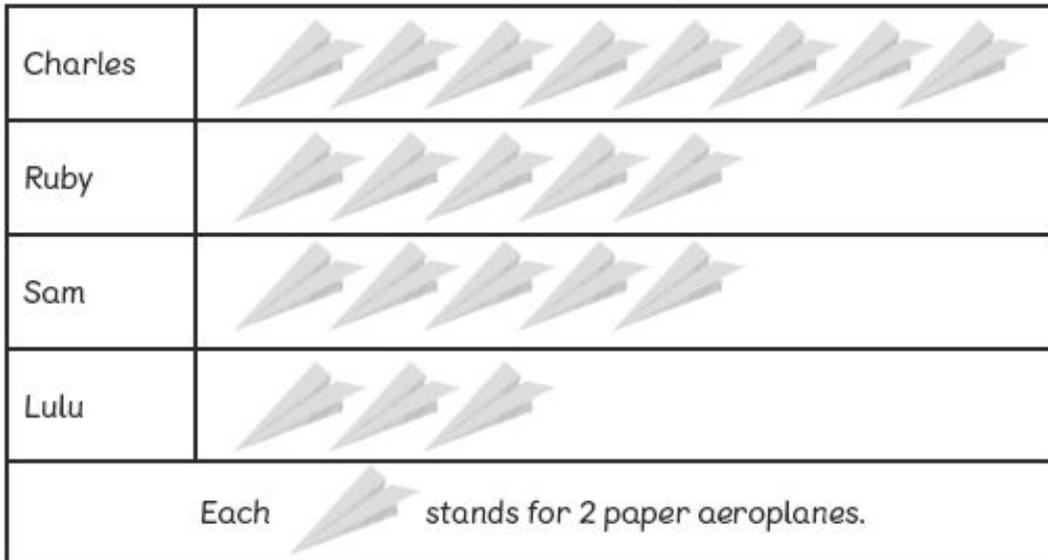

Children in 4 Teams

- a) There are _____ children in Team A.
- b) Team _____ has the most children.
- c) Team _____ has the least number of children.
- d) There are _____ more children in Team B than in Team C.
- e) There are _____ children altogether in both Team A and Team D.

3 The pictogram shows the number of paper aeroplanes made by some children. Look at the pictogram and fill in the blanks.

Number of Paper Aeroplanes

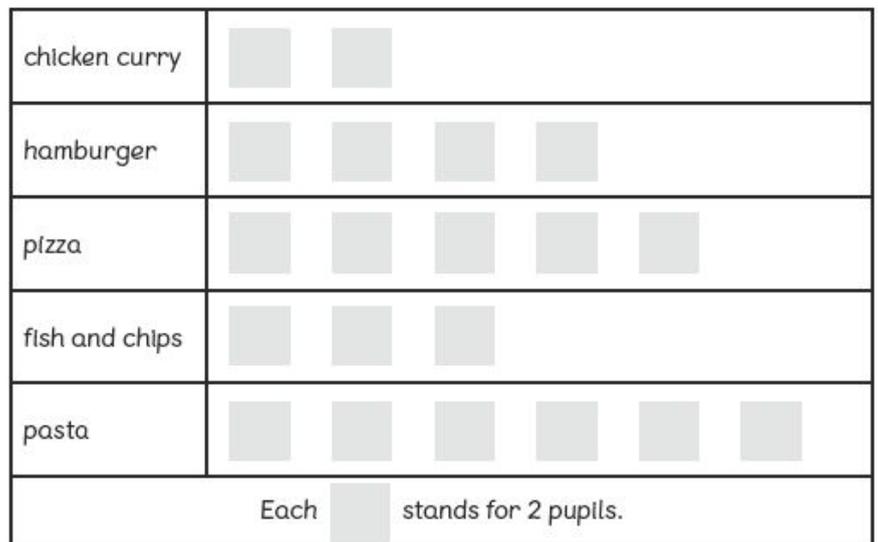

- a) Sam and Lulu made _____ paper aeroplanes altogether.
- b) _____ made the most paper aeroplanes.
- c) _____ made the least number of paper aeroplanes.
- d) Sam made _____ more paper aeroplanes than Lulu.
- e) Ruby made _____ fewer paper aeroplanes than Charles.
- f) _____ made as many paper aeroplanes as _____.

4 The pictogram shows the favourite food for pupils in a class.

Look at the pictogram and fill in the blanks.

Favourite Food

- _____ pupils choose pizza as their favourite food.
- _____ more pupils choose pasta than chicken curry as their favourite food.
- _____ is the favourite food.
- _____ is the least favourite food.
- There are _____ pupils in the class.

Challenge:

Convince me

There are more ice-creams sold at the weekend than during the rest of the week.

True or False (Why?)

Three ice creams were sold on Tuesday.

Justify

If the staff needed to pick one day to have off during the week, which would be the best day and why?
