

D&T

Your task is to make something to eat with the help of your parents/carers in the kitchen. You can bake a yummy cake, make a delicious pizza or a tasty burger/sandwich. The choice is completely yours! You must list the ingredients (the food items you need) first. Then you must write a set of instructions to make your food product. Remember to use **time conjunctions** (firstly, secondly, next and finally) and **powerful verbs** (cut, slice and chop). Once you have made your food take a picture and upload it so that your teacher can see your scrumptious food. If you do not know how to do this then you can draw a picture instead. Remember to be **safe** in the kitchen and let your adult touch anything that may be hot or sharp. For example: an oven or a knife.
