

Writing: Day 2

Playing games allows you to be creative while developing your imagination, physical and emotional strength.

Your task is to write instructions detailing how to play your favourite playground game. Think about a fun game you could play with your friend in the Ks2 playground. What would your ideal game be and why?

After completion, draw a picture of what your game looks like and if you can, upload it on google classroom (if you are having difficulties uploading your picture, please do not worry).
