

## Get your Geography on!

Today's activity you will have two tasks to complete and a challenge. All pupils must complete both tasks for your activity to be complete. The challenge is a game and I would like you all to play it at home with a member of your family.

**Task 1** - I would like you to go on to Google and see if you can find a map of all the Boroughs in London. I would like you to then draw the map on a piece of paper and upload the document. You can use colours to show different boroughs but they must all be labelled clearly.

**Task 2** - You must now write down 3 facts about London. For example a tourist area in London in the London Eye which is located in Central London.

**Challenge:** See if a member of your family can test you to see how many you can Boroughs you can remember! There are 32 in total. Goodluck!
