

Monday

# SHAPE HUNT

Hunt, hunt hunt! How many shapes can you see?!

Your task for today is to find objects inside your home and recognise the shape - you must also describe the properties of the object and how you know the shape.

1. Choose a room to detect.
2. Put on your detective's hat and get hunting.
3. Make a note of the object, the shape it resembles and it's properties (how you know).
4. Happy hunting!

Complete this table below:

Object	Shape	Properties
For example: Clock	Circle	0 corners and 0 sides
