Addition and Subtraction

1) What digit does each  represent in the following column calculations:

$$\begin{array}{r} 6 \triangle \\ + \triangle \\ \hline 74 \end{array} \quad \triangle = \quad \begin{array}{r} \triangle 6 \\ - \triangle \\ \hline \triangle 1 \end{array} \quad \triangle =$$

$$\begin{array}{r} \triangle \\ 3 \triangle \\ + \triangle \triangle \\ \hline 134 \end{array} \quad \triangle = \quad \begin{array}{r} 6 \triangle \\ - \triangle 9 \\ \hline 33 \end{array} \quad \triangle =$$

2) A rope was originally 10m long. First, 2.8m of the rope was cut off then another 4.3m was cut off. What is the length of the rope remaining?

Extra Challenge: Create your own missing number calculations.

3) Steve is 0.05 metres taller than John. Sarah is 0.07 metres smaller than John. Sarah is 1.45 metres tall. How tall is Steve?
