

Hi Everyone :)

Your task this week is:

Monday: Follow a recipe to make something delicious.

You must write down the ingredients required (needed) for your recipe, including the measurements of what you need.

E.g., 250g Plain Flour

Tuesday: Today, you must then use your English skills to write the recipe in your own words.

Remember to include imperative verbs. E.g., 'put', 'take', 'mix' and 'spread'.

Wednesday: Create and record a song that will help you to remember one of the times tables you are struggling to remember. If you know all of them, create a song about your favourite times table.

Thursday: Create a poster all about column addition.

Friday: Create a poster all about column subtraction.
