

# Enterprise

## Intent

Essex pupils use technology & digital tools to think critically, problem solve, deepen understanding, and create, new knowledge in the world.

## Implementation

- Teaching in context through themes, e.g. Fair Trade, and relating learning to a purpose
- Independence and ownership of learning
- Social enterprise projects
- Educational visits and workshops
- Mathematical fluency and confidence through a mastery approach
- New learning technologies
- Business and industry links
- Valuing component parts of the curriculum, e.g. DT - planning, designing, making and evaluating

## Impact

Pupils develop the entrepreneurial skills and mind-set they need to navigate future pathways, in a world we cannot yet envisage.
