

Year 2 - Holiday Homework

Maths

Next term, we will be learning about fractions. Take pictures or draw pictures of fractions around you. This could be halves, quarters or thirds. You may ask an adult to help you to cut fruits, cakes and other food items to show your fraction.

Also:

Practise your 2, 5 and 10 times tables on 'times table rockstars' - <https://trockstars.com/>

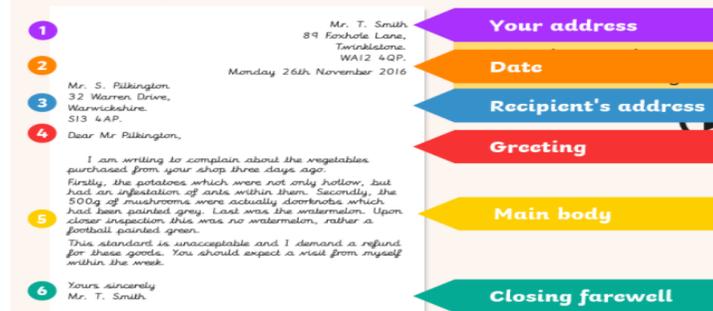

Practise solving addition and subtraction equations using the method you are most comfortable with or that is the most efficient.

This could be column method, number line method or drawing dienes.

English

Next term, our themes are interdependence and sustainability. We will be writing a letter to an alien, describing all the good things about our planet Earth and what we do to take care of it. We would like you to have a go at practising this at home with the support of your parents.

- Describe our planet Earth using all the information you have learned about the continents, oceans and seas
- Tell them what you like best about Earth and why
- Tell them about some of the issues that Earth faces with pollution and global warming
- Tell them what we are doing, or what we can do more of, to help protect our planet
- Ask them some questions about what their planet is like and anything else you would like to know about
- Make sure you include all the features of a letter as detailed below:

Reading Reminders:

You need to read for 15 minutes every day. The books that are allocated to you on Bug club will automatically progress onto the next stage. <https://www.activelearnprimary.co.uk/login?c=0> Remember to complete any comprehension linked to the book that you read.

You must also read the book that is sent home.

CHALLENGE: Write a book review or try changing the ending of your story.

History

After the holiday, we will be learning about different explorers and their contribution to the achievements of the world. Create a poster, fact-file or poem about one of the following explorers:

- Neil Armstrong
- Ernest Shackleton
- Tenzing Norgay

Include details about their life and where they explored.
