

Nursery Holiday Home learning

Dear parents and carers,

Our topic for next term will be Blast Off! We will be reading "Whatever Next!" and "Goodnight Spaceman". We have given links to videos that show the story being read for you to share with your child.

Whatever Next! https://www.youtube.com/watch?v=m0XQ9YhWd_Y

Goodnight Spaceman <https://www.youtube.com/watch?v=7-V4T2IkPQQ>

EAD/UTW

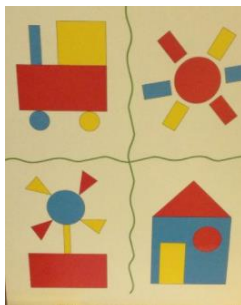

While reading these stories, create a den using some material and pretend to make a space scene. You can use things around your house, such as plastic/plate plates, to be the different planets and cut out some stars! Imagine what it would be like in space! Is it the same as our Planet Earth?

Maths - 2D shapes

We have been practising our 2D shapes - **circle, square, rectangle and triangle**.

Encourage your child to find shapes in their environment!

They can draw a shaped picture, e.g. a rocket or a house.

Talk, play and read with your child as much as possible. Go on walks and talk about the weather change, what they can see, what they like doing and what they are doing during the holidays. They can share this with us after the holidays!

Thank you for your continued support. We wish you a very happy holiday.

The Nursery Team.
