

THE STONE AGE

During, your holiday we would like you to put on your archaeologist hat, to explore the differences between the Stone Age and the Iron Age. We would like you to consider the following:

- ❖ How did people live during the Stone Age and Iron Age?
- ❖ What materials did people use to build their houses?
- ❖ What tools did they use during the Stone Age and Iron Age?
- ❖ What type of rocks did the civilians use? (Question linked to our science topic)
- ❖ How are the Iron Age and Stone Age different to our present day?

Once you have explored these questions, we would like you to complete the following tasks:

- ❖ Task 1: Make a 3D model inspired by the Stone Age. You can use different types of rocks, cardboard, paper and sticks.
- ❖ Task 2: Create a fact file with as many interesting facts about the Stone Age and Iron Age to compare the lives of the people who lived then.

Year 3 Theme - Time-Travellers

YEAR 3- Christmas holiday homework

You can
LEARN,
something new
EVERYDAY
If you
LISTEN

Have a wonderful
and restful break!

Our Big Idea - Space-time

Space and time are interlinked and connect everything that is in our past, present and future world, universe or creation.

Maths: SPLASH LEARN and TTRS

- ❖ **TASK 1:** Practise your 3, 4 and 8 times tables on 'Times table Rockstar' as well as your 2, 5 and 10s which you should already know fluently.
- ❖ **TASK 2:** Practise multiplication and division using the bond method, bar model and column method.
- ❖ **TASK 3:** Complete all your tasks on Splash Learn.

Handwriting

Please practice your handwriting every day.

abcdefghijklmnopqrstuvwxyz
abcdefghijklmnopqrstuvwxyz

Spellings

Please revise all 7 weeks previous homework for spellings over the half term - You will find these on Google Classroom.
