

Partnerships at Essex Primary

The Ogden Trust

Our partnership with the Ogden Trust demonstrates our commitment to enhancing the teaching of science at our school through impactful CPD for our staff and engaging science fairs, science workshops and science shows to amaze and engage our pupils and raise the status of science across the school.

Primary Science Quality Mark

The Primary Science Quality Mark (PSQM) is designed to set every child on a path to a life filled with exciting opportunities, by giving them access to high quality primary science education.

The PSQM enables a world of possibilities for all children.

Through a comprehensive, one-year, evidence-informed, professional development and school improvement programme our science subject leaders have been equipped with the knowledge, confidence and expert support they have needed to transform the quality and profile of science education our school. They have also been empowered to make a positive and lasting impact on science teaching and learning.

IQM

Inclusion Quality Mark provides UK schools with a nationally recognised validation of their inclusive practice and ongoing commitment to developing educational inclusion.

Music Mark

The status of 'Music Mark School' was awarded to Essex in recognition of the high-quality music education that we provide for all our pupils underpinned by the high status and value that we sign to music education as part of a broad and balanced curriculum.

Active Schools

Our partnership with Active Schools Newham enables us to deliver a high quality PE, school sport, physical activity and health and wellbeing offer for all our pupils.

Healthy Schools

Healthy Schools London is an Awards Programme that will reach out to every London child, working with schools to improve children and young people's wellbeing.

School Games Mark

This award recognises our commitment to the development of competition across our school and into the community. Participating in this process has allowed us to evaluate our PE provision and develop an action plan for future progress.

The aims of the program are to significantly reduce the number of cars travelling to and from schools, remove the barriers, both perceived and actual, to walking, cycling and taking public transport to school.

Increase the number of young people and adults choosing 'active travel' over travel by car. It has increased understanding among our school community of the travel options available to us. We have provide information to help our school community to understand the benefits of active, sustainable transport and thus positively influence their travel decisions

Newham Learning

Newham Learning is a partnership of 40 schools that work collectively to give every pupil the best start in life. We provide a range of services and support, building on the present local partnerships and networks to improve learning outcomes for all pupils across the borough.

Artsmark

Artsmark has recognised our schools' exceptional commitment to creativity by awarding us with the Artsmark Gold Award. The Artsmark Award is the only award for arts and cultural provision in England and is accredited by Arts Council England.

Rights Respecting Schools

Essex currently holds the Silver: Rights Aware accreditation to show that we have made good progress towards embedding child rights in our school. This year we will be applying for Gold: Rights Respecting accreditation, the highest stage of the RRS, as we believe we have now fully embedded the UN Convention on the Rights of the Child in our practice and ethos.

Education4Change

E4C is an educational charity that provides a programme of high-quality training and curriculum provision, equipping educators with the knowledge and confidence to start difficult conversations about race and racism.

National Theatre

Our partnership with the National Theatre enables us to create opportunities for our pupils to engage with theatre by watching special performances at theatres as well as welcoming theatre groups into our school to develop pupils' acting skills through interactive workshops.

NPW - Director

Services for schools, owned by schools

NPW is a not for profit mutual organisation that provides a range of operational, transformational and innovative services to schools and colleges to enable us to focus on improving the lives of children and young people.

Cadets

The volunteer police cadets (VPC) are groups of young people that come together with police officers to learn about policing in every London Borough. During after-school club sessions, pupils learn the team working and leadership skills that they will need to help their local community crime prevention initiatives and policing operations.

Bow Arts

Our partnership with Bow Arts enables us to collaborate with professional artists to deliver high quality learning experiences for our pupils and impactful professional development for our teachers.

Manor Park Community Schools Partnership

MPCSP is a group of 7 schools working together in our local Manor Park area. The partnership is made up of 1 Nursery School and Children's Centre, 5 Primary Schools and 1 Secondary School.

This partnership represents a powerful approach to education, where collaboration and shared goals drive school improvement, teaching and learning, and sports and extracurricular activities. By working together, we can create an environment that nurtures growth, innovation, and community. Ultimately, this collaborative model benefits everyone involved, leading to enriched educational experiences and improved outcomes for pupils.

Langdon Academy Sport Partnership

Langdon Academy Sport Partnership Objectives

1. Improving the PE experience for every young person

We focus on helping schools to reach out to every young person by redesigning PE and school sport to engage those not currently engaged as well as driving improvements in providing a meaningful PE experience for young people with disabilities.

2. Using PE and sport to inspire learning and achievement

We will use the School Sport Partnership infrastructure, to raise standards in English, maths and science as well as improve behaviour, attendance and aspirations.

3. Enabling every young person to enjoy competition and providing support to the most talented

We work with National Governing Bodies of Sport and schools to widen the opportunity for young people to compete within, and between, schools. We have also been helping to put intra-competition back at the heart of schools.

4. Developing a new generation of coaches working in schools

We are developing a homegrown community based coaching team to work across the School Sport Partnership. This encourages schools to source high-quality coaches and deploys them both in sport and more widely across other areas of the school.

5. Connecting school and club sport

We work with schools and National Governing Bodies of Sport to establish new clubs on school's sites. This is not only addressing accessibility issues for young people (cost, location and culture), but it's also helping to 'open up' schools to their local community and providing access to potentially under-used facilities.

6. Supporting the development of young leaders and volunteers

We work in partnership with a number of School Sport Partnership across East London who host major sporting events to deploy our young leaders. We introduced peer leadership programmes that give every child an opportunity to lead.
